

Smart Solutions™

F-Series™ Portable Bag Closer

Most reliable portable closer
Unmatched performance
Use in the field or on the line

For nearly a century, packaging companies of every size have trusted Fischbein Company to provide the most efficient, most dependable machinery for closing all types of bags. Now, Fischbein's F-Series™ Portable Bag Closer brings you a new level of excellence in bag-sewing technology.

The F-Series delivers the quality, durability and productivity you expect from Fischbein. With its non-corrosive epoxy finish, this versatile closer performs equally well in the field or on the line. With seamless efficiency, the F-Series quickly and securely closes multi-wall paper, woven polypropylene, jute and other types of bags.

Advanced design and features make the Fischbein F-Series the most reliable portable bag closer on the market. It comes standard with an improved lubrication system and extended-wear bushings. Mechanisms are CAD-designed and the F-Series closer has a longer-life cam, and an enhanced needle lever assembly.

With all these benefits – plus the power to operate at 1800 stitches per minute – the F-Series will handle your most demanding bag-closing jobs safely and efficiently. And, because it requires minimum maintenance and fewer adjustments, you'll find that your downtime is reduced and your costs are lower.

Whether you need a high-quality bag closer for use in the field or on the line, you'll find that the F-Series Portable Bag Closer has what it takes to get the job done. And that's just what you'd expect from Fischbein, the leader in bag-closing technology.
