

FISCHBEIN®

Model TRS-100™ Trim Removal System

Adaptable

Efficient

Self-Contained

When used with a Fischbein tape sewing system, the TRS-100 self contained trim removal system instantly recovers and stores bag top trimmings and tape clippings. Scrap is directed into a two-cubic yard storage container with see through Plexiglas cover - the container that can hold 6,000 to 8,000 bag tops (depends on size and thickness). The TRS-100 features clear, 6-inch diameter tubing and handles bag trimmings and tabs up to 3 inches high.

Model TRS-100™

Standard Features Include:

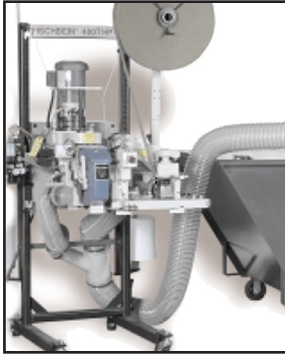

- Corrosion resistant enamel painted finish
- Operator "On/Off" safety switch
- Heavy-duty 1.5 HP motor
- NEMA 12 dust tight electrics
- Handles trim pieces up to 3 inches high
- Container and vacuum can positioned up to 50' away from the sewing system
- Mobile container with manual tilt for emptying - 14 gauge steel
- System voltage is 220 Volts, single phase
- Fischbein limited 6 month factory warranty

Another Smart Solution™ from the industry leader, the TRS-100 expands Fischbein's comprehensive line of bag weighing, handling and closing equipment.
